Dr Pan and entire staff are amazing! I have very sensitive teeth and have only found a few dentists I like. If you are looking for a new dentist, I highly recommend Dr. Pan. I do not usually give reviews but I felt I needed to since I know there are many people, like me, that are looking for a great dentist and I definitely say give her a try. Their office is awesome!

I believe Dr. Pan and staff are providing me with excellent care for several reasons. First, Dr. Pan is employing very thorough and detail oriented dental hygienists and the communication between patient, hygienist and Dr. is clear and concise. Second, Dr. Pan and the hygienists keep very careful records. Dr. Pan could show me and area of inflammation from over a year ago, compare it to x-rays now, and give me her experienced opinion. I appreciate that she seems to take the least invasive path first when the x-ray is not conclusive, taking a "wait and see" approach when possible. Finally, during my appointments, Dr. Pan takes the time to slow down amid a busy practice, communicate clearly with the hygienist and me, and give clear explanations for her decisions and advice. I appreciate her focused attention at each appointment. I highly recommend Dr. Pan and this practice.

I was surprised, but impressed when Dr Pan cleaned my teeth herself. We had an opportunity to get to know each other and she gave me suggestions for even better gum health. I also appreciated that the practice installed a new x ray machine that takes a much clearer photo of an entire mouth, rather than individual teeth. Dr. Pan took time to review the x-ray with me and explain what she was seeing. I am very happy with the level of expertise shown by Dr Pan

and her emphasis on preventive care. Thank you for the extra time and attention to detail you showed me at this visit.

Had an emergency with a headache, nose ache and very sore achy crown tooth and got in the next day at 7am. Dr. Pan was spot on with diagnosis and I needed a root canal for nerve inflammation. I was so confused as the pain was all over my left side, even on the bottom and I thought it was the bottom tooth, but with careful thorough testing she said it was the nerve radiating and it was in fact the top crown. I felt so taken care of and that day after the painless root canal through the crown by 3pm I was no longer in pain, it just vanished. I had pizza for dinner, and I slept like a baby last night and awoke with zero pain, long time patient and will continue to be.

Everyone in the office is so friendly.

I'm giving Welborn and Pan a three star, because the front office was not clear on our insurance and ran the wrong codes. Joy the office manager is very nice however, this kind of a mixup could have cost us more money had we not called our insurance company to cross check the codes before service. On the flip-side, their Staff is very thorough, polite, and accommodating above any office I've been to. I would absolutely go back knowing that I need to cross check the procedure codes with my insurance.

Wellborn & Pan are amazing with kids. They really are attentive to explaining what's to be expected, letting them watch the parent go first, and being playful and light hearted in the process. One particular appointment, my daughter was so scared for a potential cavity filling, Wellborn made the call to wait on the filling - drew her pictures of what would happen next time, made up a story about a fairy needing to find glitter fillings first, and surprised her with a toy at the next appointment. It made her so much more relaxed to understand what was actually going to happen and her feelings and fears to be acknowledged.

The experience with my hygienist was as awesome. I didn't like the fact that doctor wasn't available to discuss potential points that Dr. Wellborn has discussed with me last time. I wish I was informed about the same earlier so I could have the option of rescheduling. I understand there have been changes so I willing to give the clinic a few more chances given my awesome experience in the past.

Very friendly and they never push any treatment or want to do any work that is not necessary. It's such a good feeling to know they respect your wishes and help decide a path that is best for you and affordable for you. I was disappointed because they are not giving out toothpaste samples any more. They were great for traveling. You get and very relaxed feeling in this office. It's one big happy family!

This is such a fun & friendly office, and the dental work is stellar! Having had radiation on the left side of my face for cancer my jaw on the left aches when I have to open it too far or for too long. Livia gives me small breaks to close my mouth as she cleans my teeth which really helps. And my teeth come out so clean and shiny!

The dentist and his team are knowledgeable, gentle, and efficient in their work, and I always feel confident that my dental health is being well taken care of. I have had at least a dozen dentists in my lifetime. This is the first time I can actually say I enjoy going to the dentist. Dr. Wellborn is the best. He does great work at a reasonable price and makes the dental experience fun with his upbeat attitude and sense of humor. I should also mention that he does volunteer community service work as well - a reflection of his good character. His office staff are the best too. They are equally great at their work and enjoyable to be with. They will work with you to come up with a dental plan that works best for you. The office itself is clean and comfortable and the wait time is minimal. I'm always greeted personally when I arrive and leave. What more could you want from your dentist? I highly recommend Dr.

Wellborn and his office.

I was shocked when my teeth weren't polished. I'm in my 50s and I've never gone to the dentist and not had my teeth polished. I'm glad I had insurance otherwise I would be unhappy paying out of pocket for two minutes of scraping and a flossing. It was the oddest dental appointment I've ever had. But I definitely love this office and will continue going! Next time I'll just ask for the polish.

Melanie the office mgr is super friendly and very accommodating when making and rescheduling appointments. I had to reschedule an appointment recently it's close to the end of the year and many people like me are using the last of their insurance benefits before they're up at the end of the year. Any other dental office I've been to has not been as helpful as Dr. Wellborn's office. Jen is super nice and was very gentle when I was in a pinch and needed impressions done quickly. Kristina and Angel two of the hygienists there are very thorough. I have very sensitive teeth and they cleaned my teeth painlessly. I'm happy I found Dr. Wellborn's office. If there were an option for 6stars I would give them that!

Melissa is pleasant and wonderful to work with. She's diligent looking into insurance and cost issues. The hygienist was patient and thorough with the cleaning which is always appreciated as some will rush and boot you out the door with a freebie toothpaste and toothbrush. The only thing I'm not too fond of is how cramped the place feels & wish there was more privacy between the cleaning stations. But overall I would recommend Dr Wellborn & his team.

I've been with Aaron Wellborn for around 15 years and he has always been amazing especially when we get talking about motorcycles! I was just there yesterday and he was amazing how ever the hygienist I couldn't say the same for her. I don't remember her name but she acted like she has never done this before. Constantly making weird mistakes.. running into me multiple times with her chair not knowing where she was at in the room.. she kept having issues with how I had my mouth open which has never been an issue in 15 years of being there (shift your jaw to the right, open up wider, and close a little more).. also having issues with the x-ray machine where we ended up not talking them because she was having issues with it.. lastly throughout the whole time of her doing my cleaning, she not once removed her her finger from my mouth so I could swallow resulting in my struggling a few times trying to not move. I don't want to get away of the fact that I really love Dr. Wellborn.. I make a commute of an hour for just a cleaning so that should show that I love it there even with this experience. Hygienist come and go but he has always been there so the likelihood of her being there next time is slim to none. If I do run into her again I will reschedule with someone else tho.

Another great experience at Wellborn Dentistry! All the staff are so friendly and helpful, and are committed to making going to the dentist a pleasant experience. As one of his dental

assistants said, "Let's face it, nobody likes sitting in the dental chair, so we try to make it as good and lighthearted as we can". And they do. I especially appreciate that Dr. Wellborn listens to his clients and uses their input to make them as comfortable and painfree as possible. Most importantly, he does good thorough work, has reasonable prices, and doesn't promote unnecessary procedures. Since becoming a client of Wellborn Dentistry, I no longer dread going to the dentist. I love this dental office and the staff! They are friendly and knowledgeable. A few years back I had some aggressive skin cancer on the left side of my face along with radiation after reconstructive surgery. Radiation can weaken the jaw and bones in the mouth. Dr. Wellborn was very reassuring after checking my bones on x-rays and the lymph nodes around my neck and throat that all is well. There is laughter in this office and you know staff like each other!

Dr. Wellborn and everyone that works with him make the dentist experience as pleasant as it can possibly be. Not only are they great at their job, but they run their schedule to perfection; always on time. To top it all off, there is always a good story being told, good background music, just a very pleasant ambiance in general. 100% would recommend and do!

Overall my family members have been happy clients of this dentistry for years. The doctor is knowledgeable and easy to interact with. He listens and doesn't push you out of your comfort zone. One wish for an improvement is to have more knowledge and experienced technicians for dental cleaning as sometimes it's a hit and other times it's a miss. My recent experience last Monday, April 26 was the worst. The technician kept hurting me and then asked me repeatedly if they should perform the following step. I have no idea what is normally done by other technicians but in over 20 years I've never had this issue. I am a very patient person when it comes to pain and discomfort. When I say it hurts it really does! After I told the dental hygienist that I am experiencing severe pain she become agitated and blamed her poor performance on me. Unbelievable! It would be great to see more experienced and gentle dental hygienists at this practice. Ideally they would stay so that next time when my annual cleaning is due I could book the appointment with a familiar person. I will definitely recommend this practice to my friends.

Hello, I was happy to meet Barbara and to have my teeth cleaned. I had a great checkup with no cavities or problems. It was great to see Dr. Wellborn and hear about his sweet family! My husband must have a cleaning soon. I hope he can get an appointment. He is long overdue. Thank you so much! Kathleen

I gave you guys a 5* because you are all so wonderful. I however was not totally thrilled with my cleaning. I know during this "pandemic" everything is different. Normally when I leave my teeth feel amazing, smooth and clean. I don't know if it's because of the no polish rule at this time. Also during my cleaning very little water was used to swish around and honestly it grossed me out. Again the staff & Dr Wellborn (such a hoot) is AWESOME, but my cleaning was so so yesterday. I would totally recommend your office, I think yesterday's appt was just off because of the shizz we're going through at this time.

I absolutely loved and appreciated my recent teeth cleaning at Wellborn Family Dentistry. They have always (I've been going here 10 years) been a clean and well-maintained office, but have definitely over exceeded my expectations with the covid-19 situation. They have HEPA air filters running in the exam rooms, patients do a pre-rinse with prescription grade mouthwash, and the dental hygienist and Dr. Wellborn wear face masks and face shields. I was really impressed and not even slightly worried about my health by being there. Thank you so much, Dr. Wellborn and all the staff!!!

Dr. Wellborn and his team are very professional, friendly and trustworthy. The atmosphere in the practice is relaxed. Trustworthy is a word I have not used for a dentist in a very long time, my experience being that many dentists act like salespeople instead of educating their patients so they can make an informed decision. Dr. Wellborn does not start off selling you a crown right away because your tooth is chipped. He gives you options. In my experience many dentists give you the most profitable fix and only reluctantly offer cheaper alternatives. I believe Dr.

Wellborn enables me to make an informed decision rather than feeling I have to guard my checkbook.

I have to have deep scale cleaning (which I have had before and knew I would need) and I have absolutely no concerns about the procedure this time as I am confident that it will be done as gently as possible. So glad I was referred to Dr. Aaron Wellborn and I will be finally be seeing my dentist on a regular basis.

In addition to all of this, Doctor Wellborn told us a hilarious story of some alterations he had required for a suit to be worn to his daughter's wedding. His great sense of humor always helps to take the patient's mind off of the procedures at hand. Thank you, Doctor and Kathy! GG

Every time I have an appointment, I tell myself this is the last time I am making this trek, that I will find a dentist closer to me. But then I get there and everyone is so nice and Dr. Wellborn is so personable, I leave making another appointment in 6 months.

This was my first visit to Wellborn Family Dentistry. I went there based on a recommendation from another patient and I am very happy I went. The receptionist, the hygienist and Dr. Wellborn were all top notch: very friendly, knowledgeable and made me feel 100% comfortable in a setting where it's easy to feel stressed out or anxious. I'll most definitely keep going here and wouldn't hesitate to recommend it to anyone in need of a new dentist.

Even after several years away, I'm awed at what a wonderful, gentle dentist Dr. Wellborn is. I've already given his card to my boss and have almost squashed the old

bad feelings about going to the dentist. No matter what, there will probably always be some anxiety based on the first 30+ years of mean dentists, but it diminishes more and more with every great new visit. I've never been to a finer dentist. He is very patient, gentle, and has a delightful sense of humor. Also, the entertainment options while work is being performed are delightful!

I used to dread going to the dentist. I felt like they were looking for any possible reason to charge me and my insurance to make a buck. Dr. Wellborn is completely different. He keeps me well informed on what they are doing and why. He didn't re-do any of my existing dental work upon becoming his patient and looks for my input on things that could develop into issues down the road but are not a problem currently.

He is also genuinely fun to be around. He has a great personality and takes as much time with you as you need, answering any questions and will also chat about non-dentistry stuff as well. He is one of those guys you can imagine hanging out with outside of the dentist office. The rest of the staff is equally great. Everyone is incredibly friendly and seem like they enjoy working there. They even have a

hypo-allergenic dog that is the friendliest animal you can imagine. I'm never really excited to go to the dentist... but needless to say, I definitely don't dread it anymore. TL:DR.
.....This dentist is awesome.

His ability and expertise to keep things pain free from beginning to end, was so relieving as I am a complicated case. I welcome a shot from Dr. Wellborn over any healthcare provider any day of the week. On a final note, I've overheard him working with kids on countless occasions. He's amazing with them.

Truly. He puts me at ease overhearing him and I'm 6'3 350lbs. If you need a reference before moving forward with an appointment, you've got it. If this sounds like it was written from someone that works there, I don't. If this sounds like a friend of the family looking to help out with a review, I wish. I owe them too much money for a family member. Just trust me, from my teeth to yours, check Dr. Wellborn out!! He puts the aloha back into dentistry.

I appreciate that when I came in having a problem with painful teeth caused by a misaligned bite, as well as pain in a tooth, Dr. Wellborn did not hand the bite adjustment over to an assistant, as was the case with my previous dentist. It turned out the issues were related, and I doubt an assistant could have figured that out, since I saw the previous office 4 times for the same issue. By careful diagnosis as well as knowledge from his background and reading, Dr. Wellborn was able to solve the problem. I appreciate the careful time and attention Dr Wellborn and his staff gives me each time I visit.

A close friend referred me to this office. I was very happy with my first visit to Wellborn Family Dentistry for a cleaning and exam. A big change from the large, impersonal practice I left! Angel, who did my cleaning, was very competent and informative on areas of my mouth that may need special attention. She took time to answer my questions and hear any concerns. Dr. Wellborn took lots of time to hear my concerns about prior dental offices and listen to my goals for dental health. He did a very thorough exam, also giving me brushing and care suggestions. Front office also answered insurance, customer loyalty program questions, and scheduling questions. I am looking forward to forming a relationship with this office and maintain great dental health.

The best dentist I have ever visited, who "actually" thinks of patient's interest foremost and not his own business interest. Where two other dentists had recommended a dental implant as the only option, Aaron said it could be avoided and the tooth could be saved for another ten years by building up the core and putting another crown instead. This was not only a much less costly option, but also a much less invasive one. The anaesthesia injections on the gums are the most painful part usually, but with Dr. Aaron, I didn't feel a thing! I had only read raving online reviews about this doctor and this practice, I finally got to experience it firsthand. Even the office staff did a great job in scheduling and rescheduling me when I needed to. Based on this experience, I would give 10 stars.

I was surprised at how fast I was seen. Got to see Dr. Wellborn right away. I had routine teeth cleaning and was done in only a little over 30 minutes, even given that they were giving extra attention to some trouble spots.

Excellent dental care by a highly skilled dentist and staff who seem to genuinely enjoy working together. It's nice to hear laughter in a dentist office. I was previously a long-time patient of a "dental wellness" practice in the same office campus, that increasingly looked for opportunities to market new services while charging rates that are MUCH higher than what Wellborn Family Dentistry charges. I am now receiving even better dental care, while reducing out-of-pocket expense. My out-of-pocket expense for a porcelain crown was less than half of what my previous dentist quoted, and the fit was perfect -- much better work than what the more expensive practice delivered over more than a decade. Dr. Wellborn and his staff take a patient-centric approach, rather than practice-centric. They always make me feel like they put my interest first, medically and financially. I highly recommend Wellborn Family Dentistry. Their quality, integrity and value for money are the best I've ever experienced.

Dr. Wellborn and his staff are amazing with kids! I have a spunky 4 year old who is starting to have little bouts of anxiety which means at any given minute she's either wiggling, crying, hesitant, wiggling, chatty, curious, did I say wiggling? Dr. Wellborn and his staff are so patient and funny. Dr. Wellborn's easy going and playful nature definitely put her at ease and she LOVES going to the dentist now! They also offer prizes as incentive which is exciting for the kids. I highly recommend Dr. Wellborn to anyone and everyone!

I adore Dr Wellborn. He is positive, high energy, and great at what he does. He has been fabulous with my kids and was even able to do a filling on my son without him even knowing what was happening. It was all just play and funny talk to him. He was recommended to me as a sensible dentist that will look out for my dental interests; drilling only when necessary, no more, no less. He has certainly lived up to that reputation. I highly recommend him.

BEST DENTIST, MOST COMPASSIONATE TEAM EVER!!! :-D I was completely horrified and in extreme anxiety & PAIN from a broken tooth that had become infected, and didn't know where to turn for compassionate help that would allow me to pay a reasonable fee on a schedule that was equally compassionate and kind. I was referred by a friend who told me that Dr. Wellborn's office would fix me right up, and the DID! My insurance didn't really cover much of anything, yet from the very FIRST moment on the phone, the staff treated me with such compassion and actually LISTENED to what I had to say, didn't rush me off the phone or just ask me insurance or ID questions without first hearing me out - you know, like an ACTUAL HUMAN BEING would and should! Amazing. Such professionalism, and more importantly, kindness. Dr. Wellborn was able to see me within the next day or two - I chose two days later and made the journey by bus from Seattle to Issaquah (totally worth it!) and he was SO KIND and gentle, understanding as he said, "Anxiety is a very real thing, and we understand that here..." and he and his staff made this especially dentist-averse patient very calm and it was easy to trust that my fears and pain threshold would be taken seriously. I am a professional classical musician; singer and bassoonist, and I was TERRIFIED that dental surgery would ruin my life and career. Dr Wellborn was sensitive to all my concerns, and as able to repair my broken tooth, without need for a root canal, in record time! All while I enjoyed the "Doctor Strange" movie on a video monitor above me, and feeling no pain, thanks to the nitrous gas that was used. Could not believe how much my mind and TOOTH were at ease after this, and I pretty much laughed my way out of the office. All this, after first suffering a night or two of excruciating pain and then a few weeks of pain management, wondering who would see me with my commonly inadequate dental insurance. Thank God I found Dr. Wellborn and his incredibly team of caring professionals. GO GO GO! :)

Great as always! I feel like a family member there or at least a really good friend who's come to visit after 6 months. Everyone is terrific! Nicole and Rachel at the front desk are not only incredibly friendly, but they provide terrific customer service as well. Dr. Wellborn is awesome as well! Very friendly and informative! He talked me through everything I needed to know about a lengthy, detailed procedure I needed. So, not only is his practice a cozy, inviting environment, but it runs like a well-oiled machine. I've had nothing but good experiences here!

Exceptional dental care. After researching online, I wondered if the hundreds of dental patients, extolling perfect stars and laudatory praises could be true without a plethora of free electronic toothbrushes sweetening the deal, (a previous dental office did do that), as I have been to plenty of dentists and never seen an office that does ALL of the good things stated in these reviews, but I was very pleasantly surprised to find that the positive reviews are both authentic and well earned by Wellborn Family Dentistry, who display a love for what they do so well. What a relief to find them!

While good dental care is important, with so much to consider, it can be really difficult

to go and get it done for so many reasons—they can be very expensive, or cheap and dirty—nobody is shopping for contracting diseases. They can be rough, manhandling a tender mouth, wrenching the head as if chipping away at a wooden-block project on a shop table), adding additional questionable procedures that can leave more pain afterwards (in both lightness of wallet and jarring of the jaw) and unnecessary problems from the incomplete fixes. If someone is going to use a drill and a sometimes reeally long needle inside of a sensitive mouth, it should be done with the best intentions, kindly, gently, with great skill and expertise. My visit started with a warm welcome, no condescending, harried, terse, argumentative, grumpy personalities at the front desk, but instead refreshingly considerate, patient, and informative, explaining affordable prices. Then my appointment started on time. The office and the tools were very clean throughout. The x-rays were taken efficiently with good technology. A thorough and painless cleaning was done by Jody, who was very nice. Dr. Wellborn showed me how to read the x-rays and I could see where my cavities were, prioritize them, and had no high pressure to spend a lot quickly. I watched a funny show during the filling procedure, helping with any lingering anxiety. I never saw the needle and Dr. Wellborn made careful precautions to ensure that I was completely numb. He went the extra mile when glue from a previous dentist's filling came loose. He invests in high quality materials and was very gentle and a great communicator. I felt no pain from, during, or after the procedure and now, after time has passed, I still feel great results. Dr. Wellborn is a dentist who is down to earth, humorous, is very talented at his profession, which he genuinely seems to have a passion for and really enjoy. The cherry on top of the visit was two of the dental hygienists reactions to Dr. Wellborn's "Around the World" dance. Family is a perfect term in their dental practice title because not only do children and adults have a great experience there, the staff treats each other like family, with mutual respect and care, and the patient too. I would add another star if I could.

I cannot recommend Dr. Wellborn highly enough. I am in my sixties and have been to many dentists. He's the best I've ever had. He does not recommend procedures that you don't really need (which I have had happen with other dentists). He is gentle, conservative in his recommendations, and his work is excellent. Twice he has, instead of moving forward with a crown, patched a tooth with composite and relieved me of sensitivity and pain and the patch is still holding (one is 2 years old and the other was more recent). In both cases, he didn't even charge me! So you can begin to see why I am so enthused about Dr. Wellborn. He clearly enjoys people, is a gentle spirit, incredibly knowledgeable and skilled, and puts the patient's interests above his own.

It sounds strange to say that having oral surgery was a fun experience, but the Doctor is just that good, and it's always enjoyable to chat/pantomime with the staff. Except for Gus, who was a very poor gestural conversationalist. Take some improv classes Gus! You may be a (hypoallergenic) therapy dog, but that wouldn't stop Lassie. I heard a range of horror stories about recovering from this procedure, but it's been perfectly smooth sailing. And that's not because of cooperative teeth - I was there, and know how they fought back! No, credit goes to the skilled hand that negotiated the release of my hostage nerve endings.

Dr. Wellborn is very straight-forward, easy to talk with, and very knowledgeable. He shares complicated details with his patients in a way that makes it easy to understand. He takes pride in his work and will strive to make sure that you are not in pain and that his work is complete. He even performed some work for free in order to show me that he cares and that he wants it to be 100%. He also cares about his employees, giving them lots of holidays which in my mind probably produces less turnover and a happy environment for them. I received a dental cleaning and x-rays from Angie, the hygienist . She was very kind and gentle and yet it was very thorough. She is an exceptional professional. I hope to have my next cleaning performed by her. I've had a lot of trouble with dentists over the years and I feel that I've finally found a family dentist that I can trust.

I have been to several dentists during my 33 years of living in Issaquah and found Dr Wellborn about 3 years ago. I wish I had found him sooner as he is by far the most exceptional dentist I have come across. He always takes the time to explain any issues I have in detail, and discuss all my options so that I don't spend unnecessary money in the long run. If you are looking for a dentist that is truly experienced, does top quality work, is down to earth, personable, and has a great sense of humor, this is your guy! Dr Welborn hires quality staff that are equally experienced in their field, friendly, helpful and caring. I can't say enough about the whole team!

Review for Aaron Wellborn

Went in for a wisdom tooth extraction and was in and out before the hour was up. As soon as the numbing wore off the extraction site had little to no pain and I didn't even remember how bad it had felt before. Everyone was very efficient and Dr. Wellborn is extremely friendly and nice. Been going here for over 10 years now and I have always had a good experience.

Just had a cleaning. The Dental Asst was very skilled and extremely gentle. I can't emphasize enough how pleasant and cooperative the entire staff is at Wellborn. Furthermore, they are very practical in their recommendations and never try to upsell or push unneeded services. The best experience on all levels I have ever had obtaining dental services. I highly recommend Wellborn. If this sounds to good it is not. This is my experience over multiple appointments.

Review for Aaron Wellborn

Dr. Wellborn does a really good job of prioritizing the comfort of his patients. I had to get my first filling and I was a bit nervous, especially about getting a shot, and Dr. Wellborn talked through what he was going to do. I wound up not needing a shot at all, and I really appreciated that he let me make that decision, and was willing to stop what he was doing to give me the anesthetic after all if I decided I needed it. He does a good job of monitoring patient comfort and pain, which I really appreciate. Dr. Wellborn and the staff are all extremely nice and easy to talk to, I feel very comfortable at his office. I have to battle my way through Issaquah traffic to get there, and I really do feel that this practice is worth it.

Rachel and Nicole at the front desk are awesome, and Dr. Wellborn is awesome. They're super friendly while still being professional. The only reason I didn't give 5 stars is because of the hygienist(I'm sorry, I don't remember her name). She was very nice, she gave me lots of great info, but, out of the many cleanings I've had over the years, I've never had one as painful as this one was. She was really rough, and she had me do a lot of the work: moving my head around, moving my tongue just so, and she even had me hold the suction. I thought that in particular was incredibly strange!

Review for Angie Wilson

After avoiding dentists for a few years because of prior history of not getting numbed enough during dental procedures, I finally relented and found a local dentist for a check-up. The staff was friendly, the hygienist thorough and Dr. Wellborn explained the x-rays in detail. I am very happy with my experience and happy to have a local dentist I don't dread visiting.

Review for Aaron Wellborn

This was a great experience! I spent a lot of time on the phone with the office staff and they were incredibly helpful. When they didn't know the answer to my questions, they would quickly get someone for me to talk to who did know. When I got to the office, it felt very clean and home-y. Again, the office staff and dental staff were very friendly and helpful. Dr. Wellborn is awesome too! He made me feel very comfortable, made sure I knew what work was being done, that I understood it, and arranged my appointments such that I would be able to afford that work. He's just a cool guy! Very personable, caring, relaxed, and just real. Oh yeah, and I even got to watch a movie with Bose headphones while my procedure was being done! Anyway, I could go on and on. These guys are terrific! Nothing bad to say!

Wellborn Family Dentistry provides patients with a comfortable, caring and welcoming environment. I changed dentists over a year ago because I felt pressured by my former dentist. I do not feel pressured by Dr. Aaron or his staff members. I feel that I'm appreciated as a patient. Dr. Wellborn is very professional with a gentle touch and provides common sense good advice regarding my dental health. My husband is also seeing Dr. Aaron.

Really enjoy the service attitude there. Nothing worse than getting a lecture about what you may have or have not done concerning your dental health instead of just working towards a solution. Those lectures that other dentists give is a reason folks stay away from the dentist. Thanks for having a service oriented group that makes you feel like you want to go back instead of dreading what you'll be told when you get there.

Love this office and the staff. Great front desk and dentist. During my last appointment there was a temp hygienist and she was pretty rough on my mouth and not familiar with the office, equipment, etc. not a bad visit, just not as good as previous. After seeing the same dentist my entire life, I was a little hesitant to find a new dentist after moving away. However, a quick google search led me towards Dr. Wellborn and his great online satisfaction scores. After a couple appointments, I fully understand why he is so highly rated on Google! His comfortable exam rooms come equipped with the latest dental technology, and he couldn't be more comforting! The dentist has never been a stressful place for me, but Dr. Wellborn has a fun, yet warm approach I enjoy. He even picks out great movies for you to watch while getting work done! The ladies in the office are also very helpful and friendly. The only issue is that he's so popular, it can be hard to find an appointment that works well with your schedule.

Dr. Wellborn is the best dentist ever!! This coming from someone who used to see going to the dentist as voluntary torture. Most dentist torture you for 30 minutes then they try to upsell you every chane they get. It's so hard to

find someone who genuinely cares about you and not how to maximize their profit. Thank God we switched to him a few years ago. I also never thought my kids would like going to the dentist but because he and his staff are so amazing, they can't wait for their next visit.

Review for Aaron Wellborn

Dr. Wellborn is an excellent Dentist. After living in many different states and experiencing many different Dentist's, I can confidently say that he's the best of the best. Dr. Wellborn is extremely professional and has excellent bedside care. Not only is he a great Dentist from a technical standpoint, but he's also very friendly. He's thorough, honest and takes the time to put you at ease. Dr. Wellborn has surrounded himself with an excellent team that makes every visit really pleasant. I've also observed him work with children. That said, I was really impressed and look forward to bringing my future children to see him. I drive 35 miles each way and pass hundreds of other

Dentist's to visit his practice. It's well worth the time and effort. I highly recommend him.

I recommend your office all the time. It's a very friendly environment including the front desk, assistants and especially Dr. Wellborn. It's easy to schedule appointments and the front desk is always double checking your insurance plan to ensure you are covered. Dr. Wellborn has a knack for putting kids at ease and helping them through tough procedures. They don't advertise gimmicks and free services because they keep their patients based on great care.

Review for Aaron Wellborn

I have lived in Issaquah for 30 years and finally feel I have found the best dentist in Issaquah! I went to Dr Welborn after spending a LOT of money with another local dentist, who told me after two failed attempts with putting new crowns on two of my front teeth within an 18 month period, and charging me \$6,000 that the only option I had left was to get implants. Dr Welborn took the time to analyze my situation and actually suggested crown lengthening as a better solution as these are my front teeth, and implants may not look good. He referred me to two other specialist to get their opinion so I could make an educated decision. I am thrilled to have found

him. He is down to earth, friendly and experienced, and it is clear that he enjoys what he does. He has a very friendly staff who kindly answered many other questions I had along the way! I HIGHLY recommend him!

Review for Aaron Wellborn

So lucky that there had been a cancellation of an afternoon appointment with Aaron yesterday . . . so that a gaping hole – resulting from a filling having falling out while flossing earlier that morning – could be restored on the backside of a special lower tooth (adjacent to my incisor) serving as the left anchor for my permanent lower front retainer! Although it had been a while since my last visit and there were some new faces in his practice, I received the same warm welcome and royal treatment as well excellent care that I'd come to expect from him and everyone on his staff!

Best part is I didn't feel judged or anything, and they truly seemed to care about helping my toothache. Best dentist ever! We've been coming to him for about 5 years. Even my kids love coming to the dentist! We had been to several dentists over the last 15 years in the area and they have all been disappointing for one reason or another. Some just try to get through as many patients as possible so you feel like a number. Others just look to upsell or are always surprising you with hidden costs. Dr Wellborn is different. He gets to know you, has a great sense of humor and is very upfront about what's necessary and what isn't and the cost.

Very professional and does an excellent job. As soon as you walk in they greet you and make you feel comfortable. As you wait for a minimal time to be seen, you can watch tv or read a magazine. The staff seems happy you are there! They take great care of you and your teeth!

Excellent every time! My family and I are so grateful to have found Dr. Wellborn. He and his staff definitely put the " Family" back into Dentistry. Previous dentists have always made me feel like a cleaning was just an upsell opportunity. Dr. Wellborn gives you a personal consultation and presents options that match up well with your insurance provider's coverage, while at the same time giving you straight

talk about the care and maintenance of your teeth. We have and will continue to recommend Dr.

Wellborn to our friends and family.

Dr Wellborn is a dentist with integrity and care to each patients needs. His staff is professional and friendly. I switched to Dr Wellborn after going to another dentist in Burien who was more interested in lining her pockets than looking after my teeth. There are good dentists and bad ones, like in any field,. I am pleased to say that in the year or so I have been going to Dr Wellborn, he has shown himself to be highly ethical and putting the patient first. Not all dentists are the same, some look after themselves, while Dr Wellborn looks after you

The office may not be the fanciest amongst the Dental community and a little updating wouldn't hurt, but that is completely insignificant compared to Dr. Wellborn's dentistry and support staff. I get the most thorough and spotless cleanings from his hygienists and Dr. Wellborn is one hell of a cool dentist :) I trust him fully and he'll talk you through everything and then some. He does the work that needs to be done and really makes you feel like a welcomed patient. I would say it's almost a joy going to the see the dentist at Dr. Wellborn's office... almost ;) great work, fair price and even better people! Highly recommend them.

Dr. Aaron Wellborn has made me look at dentists differently! After decades of anxiety and tension, I have a new set of expectations when I go to the dentist. The whole staff is wonderful with Dr. Wellborn being the star of the show! He has always made me feel reassured and help me plan for better dental health rather than focusing on the unchangeable sins of the past. It was quite the change for me to become excited to

see the dentist, rather than dreading it. The fact that I can watch movies as he does his magic doesn't hurt either. I've referred several people to Dr. Wellborn and everyone agreed with my glowing reviews of him! Don't wait another day. :D

I went in for an extraction yesterday and although extractions are never great, Dr. Wellborn did a fantastic, relatively painless job (and the meds do the rest :)). Equally important (actually, probably more important) are my children's experiences with Dr. Wellborn. My children (now 4 and 8) have both been going to Dr. Wellborn's office since they were very small, and have loved every visit.

Review for Aaron Wellborn

Nicest, office personal and Dentist. Understanding about money and non judgmental about your teeth. They are so nice there. They are all the way you hope a dentist office could actually be, but you never can find! I've tried 5 different dentist and would always come home depressed about my teeth. When I met Wellborn I wasn't at all. I actually, wanted to go back and get all my teeth fixed and not put it off until I was in so much pain I couldn't take it. Then panic that when I'd go to the dentist they'd be rude about it.

I'm still looking forward to my swelling to go down after my root canal, but otherwise, I guess everything is ok there. I was most disappointed about showing up on time for an early appt on a Saturday and having Dr. Wellborn show up late...again. He was late to my previous Saturday morning appointment too.

I was very pleased with the care I received. My hygienist was so careful, yet thorough, very friendly and nice. I was quite satisfied. I would like to say something about the website and profile...I don't care for how our family as a whole is linked, so that we can't use individual email or cell phone information. As it is, my email address is used, while my husband's cell phone is used. Consequently, my husband got the reminder text for MY appointment, and I got the email regarding your website. It would work better, if you cannot isolate family information, you could allow additional email and cell phone information on the family account.

As for my dental hygiene, it always feels like the staff at Wellborn Dentistry is on your side as a patient and less like they're lecturing you. There was just one problem with my visit to Dr. Wellborn's office this time. I had scheduled my appointment for a Tuesday morning because those are the days I am off work in the mornings. However, a week before my appointment, I got an e-mail asking me to confirm my appointment for the Thursday of that week instead of the Tuesday. Confused, I called the office and was told appointments had been shifted around because of a change in hygienists. They said they had tried to contact everyone, but that apparently they couldn't reach me. However, I never had any message, nor did I have a missed call from the office because I would have seen that and called back. Despite this annoying setback, my overall experience was still above average because everyone at Dr. Wellborn's office is so nice and knowledgeable. My actual visit was as wonderful as always. I just hope there are no more scheduling fiascoes for all of us patients.

We very much enjoy our visits to Dr. Welborn's office. We have three kids, none us -mostly me ever "enjoyed" visiting our dentist until we met Dr. Welborn. Dr. Welborn's entire approach to dentistry is progressive. He focuses on the patient's priorities and cost effective treatment. He concentrates on the patient's best interests and best practice of dentistry. The staff is wonderful - I appreciate the amount of humor and authentic interests they show in knowing every patient. It makes our appointments more like visiting a friend. Before we met Dr. Welborn I would not go to the dentist

until I had a toothache. Now every member of my family goes to Dr. Welborn and we appreciate his thorough and preventative care to our dental needs. I have complex teeth issues; an implant, crowns, caps bridges etc. Dr. Welborn can handle all of our dental needs. No longer do I have to have several appointments to get my teeth right Dr. Welborn is always prepared and offers state of the art dentistry. Honestly, we really like Dr. Welborn as a person and that makes him the perfect dentist for our family. From the warm welcome at the front door, to the personable staff that stop to introduce themselves, our first visit to Dr. Wellborn was excellent! Dr. Wellborn is fun, laid back and took the time to show my kids on the internet, what will happen to their teeth if they eat too much sugar- it really made an impact. Our second visit was just as fun- he had candy for the Mom and we all got new tooth brushes- my kids loved it!

My son needed an emergency repair to a broken front tooth, Dr. Wellborn and his staff were professional, compassionate and welcoming. We were able to get an appointment the same morning and they really made my son feel relaxed and less anxious about the damage to his tooth. Best of all, his tooth looks terrific! No one would ever know that he had broken it completely in half just the day before!

Aaron is a great dentist. Personable, professional, caring and helpful. He takes time to explain not only what he's doing to your teeth, but why and what you can do. There's no guilt about what I should be doing better, but he'll let me know what would be helpful. He generally just does a great job, and his staff is very friendly and helpful, as well.

You can get nice receptionists and movies in dozens of offices, but you won't find a more compassionate, comprehensive, and caring dentist than Dr. Wellborn. As someone who has had nothing but problems with dentists' since childhood, it was really shocking for me to find someone that I trust so completely. Dr. Wellborn isn't judgmental or brutal. He is patient, very thoughtful in all his actions, and a fantastic dentist. All of the work I've had done with him was explained thoroughly and I have always had the best care from him and his staff. I've never looked forward to seeing a dentist as much as I have since the first time I walked through his doors! PS - All of my friends and family have received his card!

During my visit for what we thought would be a routine crown procedure, Dr. Wellborn discovered that my tooth was more damaged than originally thought and we began to discuss options. The thing that struck me immediately was his willingness to consider all options. We went through a host of options, starting with the crown, a filling, a root canal, and finally extraction. We discovered that my tooth was damaged by internal resorption and it was riddled with holes. It was unfortunate, but the care and attention I received was beyond the ordinary. It was a collaborative experience, with Dr.

Wellborn providing his expert opinion and advice all along the way. What started out as a one hour appointment turned into a two and a half hour appointment, and yet Dr. Wellborn never rushed through anything nor did he appear concerned that we were taking so much time. He coordinated his schedule and finished the work. I am appreciative and still impressed with his treatment of me and his skill.

I LOVE that Dr. Wellborn is personable, honest and will tell you exactly what needs to be done now and what can wait until later. He remembers me from 6+ months ago and even remembers what we talk about from visit to visit. Very friendly, very knowledgeable and makes me feel comfy getting my teeth worked on which is a pretty big feat!

We always enjoy our dental visits to Dr. Wellborn's office. Every visit has been a positive experience for myself and my kids. We have had everything done, from regular check ups to major dental work. I always come away feeling well informed and as though I have found a dentist who is very good at what he does and mostly importantly, he truly cares about his patients.

Friendly and attentive staff. Everyone there has such a soft touch which helps immensely with a dental visit. I was struck with the amount of cool, modern, equipment Doc uses and it makes for what can sometimes be an angst filled experience that much more palatable. Especially if you are a repeat customer such as myself :)

Having worked for the best dentist in Eastern Washington I was very critical of every dentist I had been to in the Seattle/King County area. Dr Wellborn and his staff are wonderful. They listen to your concerns, work with your schedule and your kid's schedules, the dental work is exceptional and Dr Wellborn treats you as if he has

known you for years. That was very important to me and my family as my husband has never been very fond of the dentist office.

Dr. Wellborn has changed my entire reality of what a dentist can be. Long forgotten are the days of a mean dentist and the "technology" that came with it. Dr. Wellborn is at the forefront of dentistry with technology nearly as fantastic as his manner. I recommend him to anybody that needs a dentist. I smile bigger and brighter every day for having him as my dentist.

Two things really elevated my experience at Dr. Wellborn's office above previous dentists: 1. Genuine friendliness -- First dentist since 1991 that I might actually hang out with other than by appointment. 2. Explanation of exam findings and suggested treatment -- I learned more things about my teeth and gums in one hour than in the previous 10 years. Dr. W told me what he was seeing. Showed me. Talked about treatments and clearly differentiated between what can be done and what needs to be done. All the usual expectations were exceeded. The entire staff was friendly and competent. The office was very clean. Scheduling was straightforward, and the office manager even made some suggestions that will help maximize my insurance coverage. I'm actually looking forward to my next appointment.

Dr. Wellborn has been the best Dentist that I have ever had. Him and his staff were so kind and really listened to what you wanted. It really sucked that I had to move to a different state. If I could travel to WA every 6 months so I could keep him as a Dentist!!
